

Led by HSAA Head Coach
and EIRA Founder

Salty Thompson

EIRA emphasizes both technical and tactical skill development. EIRA is a deliberate and focused age grade high performance program targeting the development of the best young players eligible to represent the USA as part of the HSAA program. The best prospects graduate to the USA HSAA and U20 player pools. EIRA is endorsed by USA Rugby and is a pathway to the USA HSAA.

EIRA is not intended to train the beginning player. Players must be able to easily perform basic rugby skills at an above average level. The EIRA Indiana Player Development Clinic is offered by invite only.

Goals:

- 1) Provide a quality, challenging rugby skills session
- 2) Identify prospects, u16s through u19s, that can play at the HSAA and future collegiate level

Who can attend:

- 1) 8th grade through 12 grade players already playing or capable of playing all-star level rugby for Tennessee or neighboring states
- 2) **Players need to be recommended by coaches!**
- 3) Email Coach Salty Thompson (eagleimpactrugby@gmail.com) with a rugby resume to include playing career and coach references prior to registering
